

CoinDesk Indices Announces July 2024 CoinDesk Market Index Reconstitution Results

June 18, 2024: CoinDesk Indices has completed the July 2024 reconstitution of the CoinDesk Market Index (CMI) and reference rates based on data available as of June 14, 2024. The reconstitution will be effective at 4p.m. Eastern Time on July 2, 2024, and includes updates to circulating supply data as well as constituent changes.

Note: The previously announced methodology changes to DACS and CMI are incorporated into the July 2024 reconstitution. The transition of DACS from 500 digital assets to 250 digital assets resulted in a greater number of deletions to CMI. The deletions are digital assets that would have otherwise ranked above 250 in DACS by market capitalization.

The reconstitution resulted in the following additions and deletions to the CMI family.
