Rebalance Implementation

Weighting Adjustment Factors (WAFs) will be determined on September 23, 2026 and used to calculate the target weights.

¹ LADYS did not meet the minimum 1M ADVT threshold. All other deletions are due to the asset falling outside of the top 50 based on average daily value traded. The weight of deletions is based on the constituent's recent weight in the index.

Final weights will be calculated on September 30, 2026 at 4 p.m. Eastern Time using the Reference Rates at that time and the WAFs determined on September 23, 2026.
