

CoinDesk Indices Announces Index Updates following EOS to Vaulta Token Migration

June 10, 2025 – EOS Network (EOS) announced it has rebranded to Vaulta and the new Vaulta token (A) has replaced EOS as the network's primary asset. Holders can swap EOS for A at a 1:1 ratio.

Based on the token migration, CoinDesk will implement the following adjustments:

Single Digital Asset Price Index

- The EOS Single Digital Asset Price Index (EOSX) will be discontinued effective June 30, 2025. Clients using EOSX that require access to the price of Vaulta (A) should contact IndexServices@coindesk.com prior to June 30, 2025.

CoinDesk 80 and CoinDesk 100

- Effective June 13, 2025, at 4PM Eastern Time, EOS will be deleted and A will be added to the CoinDesk 80 Index. Based on the 1:1 conversion ratio, the circulating supply will remain unchanged - please see below table for details. At the July reconstitution, the circulating supply of Vaulta will be updated based on the latest available data.

Name	Ticker	Currency	Supply	Factor	Action
EOS	EOS	USD	1,381,590,182	1	Deletion
Vaulta	A	USD	1,381,590,182	1	Addition

CoinDesk Market Index Family

- EOS continues to meet the eligibility requirements of the CoinDesk Market Index (CMI) and subindices and, therefore, no changes will be implemented at this time. The CMI index family will be reviewed and reconstituted on July 2, 2025. CoinDesk will assess EOS and A at that time and determine if any adjustments are necessary.

For questions on this announcement, please contact IndexServices@coindesk.com.

Regards,

CoinDesk Indices
